February 20, 2020

My name is Alyssa (Ally) Boyér and I am asking you to elect me as your President. I've held several positions within my undergraduate student government including Freshman Class President, and Junior Class Treasurer. I also served as President of my college's branch of the National Honor Society. Aside from student government, I was captain of my university's swim team and involved in many other extracurricular activities on campus, including Editor-in-Chief of our student publication. Put simply, I like to dedicate my time and energy to programs with which I am invested. My participation in all of these activities allowed me to learn how to effectively balance the tasks with which I was posed, while simultaneously managing my schoolwork and grades. In addition, I've grown quite accustomed to working with and around large groups.

By electing me, you would be electing someone experienced with student-run government as well as someone with a collaborative work style. You would be electing somebody who strives for excellence and kindness in everything she does. I want the Student Senate to succeed and be a positive organization that brings about positive change at the college. Moreover, I want to be a person with whom graduate students can come to with issues, ideas, or general concerns regarding the direction in which our university's policy may be going.

As President, I would like to find myself engaged with all of my classmates in order to create a successful and inclusive atmosphere in which every person can flourish both academically and socially. I thank you for taking the time to read this letter and I very much hope to find myself working with you as your President.

Sincerely,

CLASS OF 2021
