It has been a great pleasure to be a part of the University of Tennessee College of Communications Master’s Program. Being at the university has allowed me to acquire many skills sets and accomplished numerous goals, which has amplified my resume. Today, I am inspiring to be a candidate for the Vice President position for the 2021-2022 academic school year. My experiences in many organizations, have taught me how to be a leader and team member. I have learned to promote and achieve beyond what is required and hold myself self-accountable for my actions. I can see how impactful these skills are to the people around me and myself. That feeling is something that makes me want to make a difference in the community and at the university. The focus on bringing people together and helping one another is an accomplishment for more than one person. If I were accepted into this position, I would use this opportunity to encourage and acknowledge diversification, promote high scholastics, and above all leading the student body in an exemplary way to success.
