Student Union, Room 169

Senators Present: Refer to Appendix

Ex-Officio Members Present: Millie Turner Cheatham, Dixie Thompson

Opening Remarks

1. Call to Order - George Fields
 - a. Hello everyone and welcome to our third senate session of the 2021-2022 academic year. Thank you for being here today. We have a lot of exciting ideas and updates on the agenda for today.
 - b. Raise your hand if you wish to be acknowledged. Once you have the floor, you may speak. Always introduce yourself with your name and voting number so that we can make note in the meeting minutes. Same goes for zoom members as well.

Guest Speakers

1. Guest Speaker - iSTEMmed
 - a. Inclusive stem majors for equity and diversity.
 - b. We recognize the need on this campus to cater to underrepresented graduate students in the STEM fields
 - c. Want to provide a better space for learning, research, etc.
 - d. Introduced officers
 - e. Passed out fliers
 - f. Question from senator regarding the policy iSTEMmed is looking to promote.
 - i. Better understanding of TA experience, hours, impact on TA graduation schedules.

- ii. Working with diversity and inclusion committees to hold departments accountable to their missions
 - iii. 12 (Nate Gibson) asked for digital version of flyer
 - iv. Question from senator about connecting with OUTStem on campus, iSTEMmed is definitely looking into making that connection.
 - v. Dean Thompson suggested connecting with other DEI focused organizations on campus, to be stronger together.
2. Guest Speaker - Dr. Lou Gross
- a. Dr. Gross' second time as Faculty Senate President. Pleased by the grad student involvement level here now.
 - b. FSA is interested and concerned about the magnitude of fees grad students pay.
 - i. Greatly impacts stipend
 - ii. Reduces faculty capability to attract graduate students as compared to other institutions
 - iii. These fees keep going up every year (he's been here 43 years) but the impact these fees have for grad students and the impact of fee use doesn't seem to change
 - iv. Looking into having fees covered for students who are receiving outside funding. Working on a way to come up with that.
 - v. Dean Thompson is trying to find ways to reduce those fees.
 - vi. Anyone with resolutions or policy ideas, please let them know through the Graduate Council so the Faculty Senate can best support you in this role.
 - vii. RE: Stipends, historically there is very little oversight about the stipends paid to grad students. The stipends are very variable, because they're based on each department funding. Central oversight is not necessarily possible, but a new budget allocation model will be determining how funds are distributed across campus.
 - viii. Deans of Colleges will now have tremendous power regarding numbers of graduate students, and costs for graduate students.
 - ix. GSS should be as cognizant as possible of this and work together with Deans moving forward so it doesn't negatively impact students.
 - x. You (students) do have the authority to work with the Deans and Provosts Office to work on these things, faculty has very little power in this aspect.

- xi. 92 (Christian Xavier Young) asks about research into where those funds go and how they're used by grad students.
 1. Dr. Gross: Those fees are tracked by central administration. May be able to contact the IT department to see what percentage of use is grad students. These fees aren't allocated based on use, by percentage of grad students using each etc.
 2. Some members of the Board of Trustees are open to increasing student capabilities to run organizations with money from fees.

4. Today I want to provide some GSS updates and some of the major wins we've accomplished since our last senate meeting, so that you can pass this information to your respective departments.

 - b. Please let us know if you know of anyone that would be willing to fill vacancies.
12. Internal committee assignments.
- a. You have all been assigned internal committees, look forward to seeing the progress each senate meeting from the committees
 - b. Vital role that committees serve for GSS, this is how we make change and influence campus for the better.
 - c. They are the workhorse, providing background and extended discussions on issues that impact grad students.
 - i. Just think. If each of the 95 senate seats were filled. 1 hour per month across the fall and spring semesters. That's 950 hours of service given back to our grad students. Through events. Policy proposals. Initiatives. Etc. This is why our work is so vital. Each of us contributing a small part will make a major difference.
 - d. Use this mechanism, to develop proposals and policies that will be used to improve graduate student wellbeing and success. Divide and conquer.
 - e. Today we will have the first committee reports of the academic year.

- f. Each chair will discuss the role of their respective committee and planned initiatives. Each senate meeting, we will hear updates

 - d. Good relation with DGS
15. We also strongly encourage you to reach out to Mohamed and myself if you know of specific issues that we can bring to the senate's attention.
